

OK-FLOURISH PITCH DECK

Business Presentation

Ok Flourish

Built on OK-Chain

A Little Background

Many Countries around the are now experiencing more hardship due to the pandemic and governments are becoming more totalitarian restricting people from accessing opportunities provided by blockchain technology which has lifted millions of people from poverty mostly in developed countries. To make matters worse, the blockchain solutions available today only favored people in developed nations and other third world participants of the economy are neglected.

OK Flourish is born out of the need to represent marginalized communities of the blockchain revolution era around the world equally, and to provide equal opportunities for all humans wherever they my live around the globe.

OUR VISION

01. **Stablecoin**

To become the no 1 decentralized Stablecoin protocol globally.

02. **Equal Representation**

To Provide Equal Representation for lower economies in the Stablecoin market

03. **Passive Income**

Enrich our users through the use of perpetual vaults and yield programs

04. **Freedom**

To be a smooth bridge between traditional finance and Decentralized finance where users can become their own bank.

The Problems
We Solve.

BANK COMPETITION

Banks don't support cryptocurrency transactions serving as a barrier to entry for many countries

VALUE LOSS ON SAVINGS

0% interest and decline in value of Fiat savings

NO EQUAL REPRESENTATION

No equal representation for other Nation's Fiat except for US Dollar

LIMITED OPPORTUNITIES

Opportunities of blockchain has mostly only favoured people in developed nations

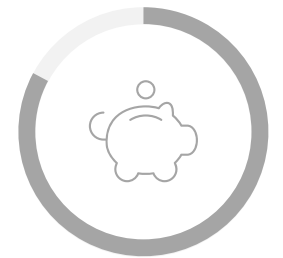

What opportunities are
we enabling?

Enables Cashless but
rich economy

Retail Business can
now accept
Stablecoins

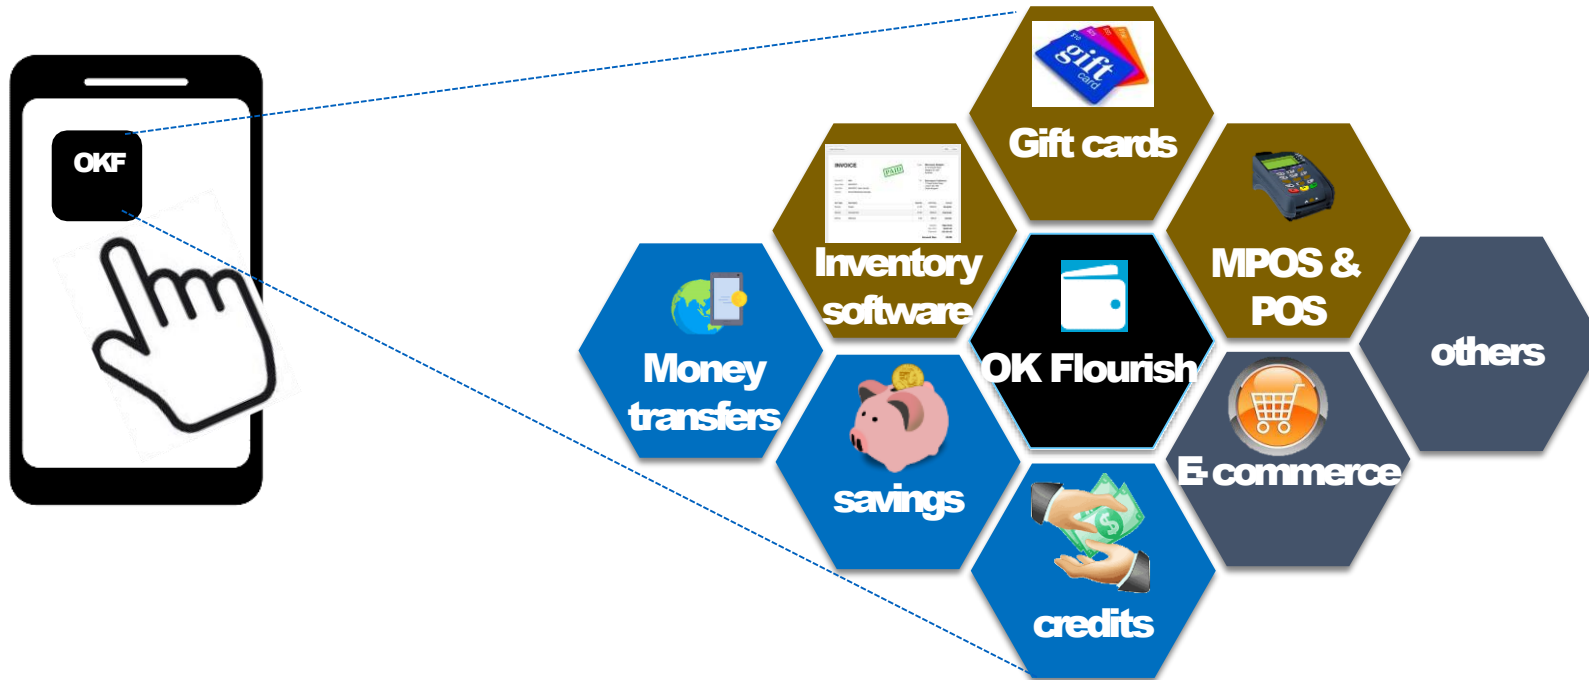

You can save your
money in foreign
currency

The Use Cases of OK Flourish

Use Cases

- OK Flourish stablecoins at the core to empower the unbanked population
- OK Flourish removes government bureaucracy making you your own bank
- Transfer without censor, make interest on savings, save in foreign currency.

WHAT IS OK-FLOURISH?

- OK-Flourish is a Stablecoin protocol that is designed to represent all fiat currencies of lower economies in blockchain space
- OKF is the ticker for OK-Flourish protocol token which is built on OK-Chain
- OKF will be built on OK-Chain which is cheap, fast and scalable.

Why choose OK-Chain ?

We choose OK-Chain because it is fast, cheap and EVM Compatible.

HOW IT WORKS

People like you and me who powers OK Flourish Protocol ecosystem

Retrieve your collateral anytime by returning your stablecoins to the protocol or selling them.

Repeat the process as much as you like

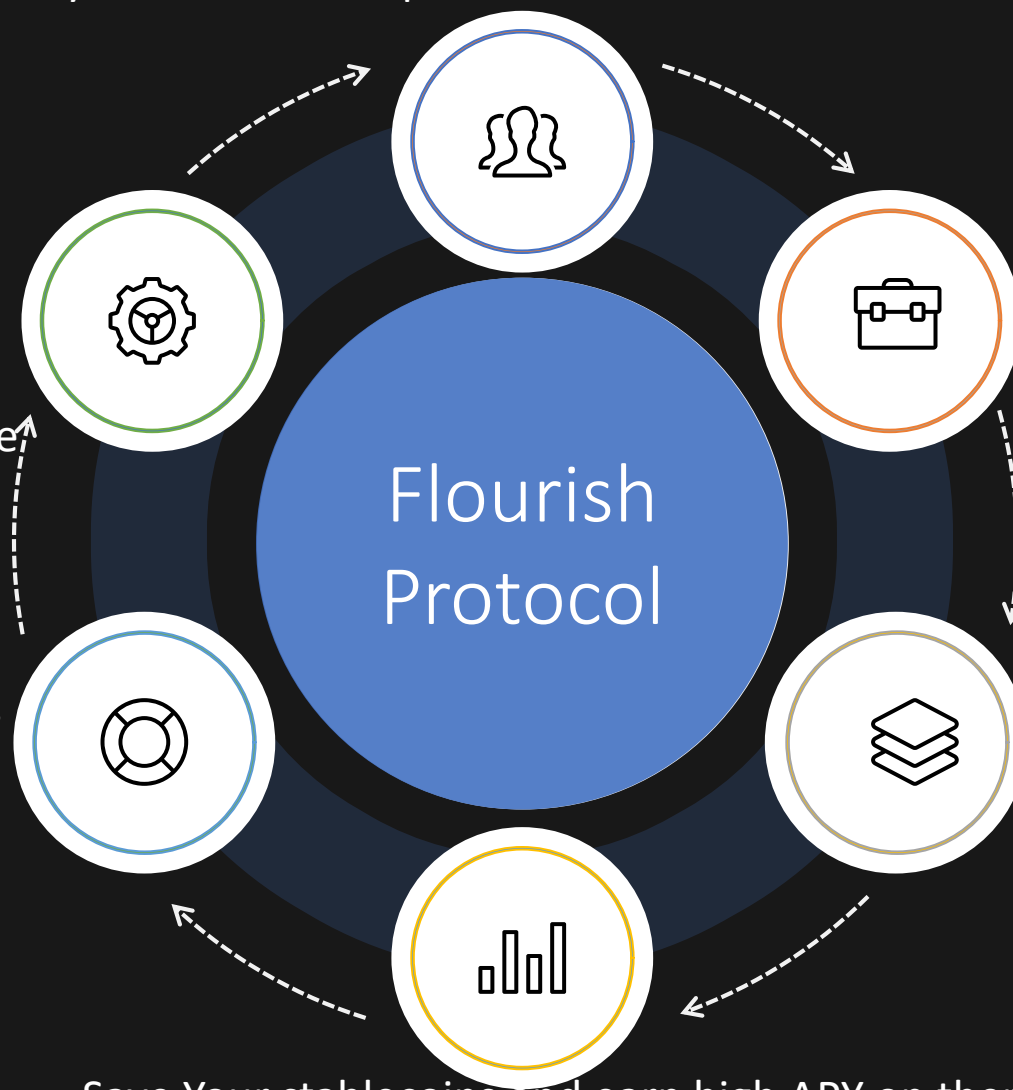

Become LP to earn transaction fees or Borrow money with lowest interest Rate.

Save Your stablecoins and earn high APY on them
Banks will not give you that

Deposit USDT or OKF into the vault to print any local currency of your choice

125% for USDT and 200% and above for OKF

The Vault prints you any desired local currency

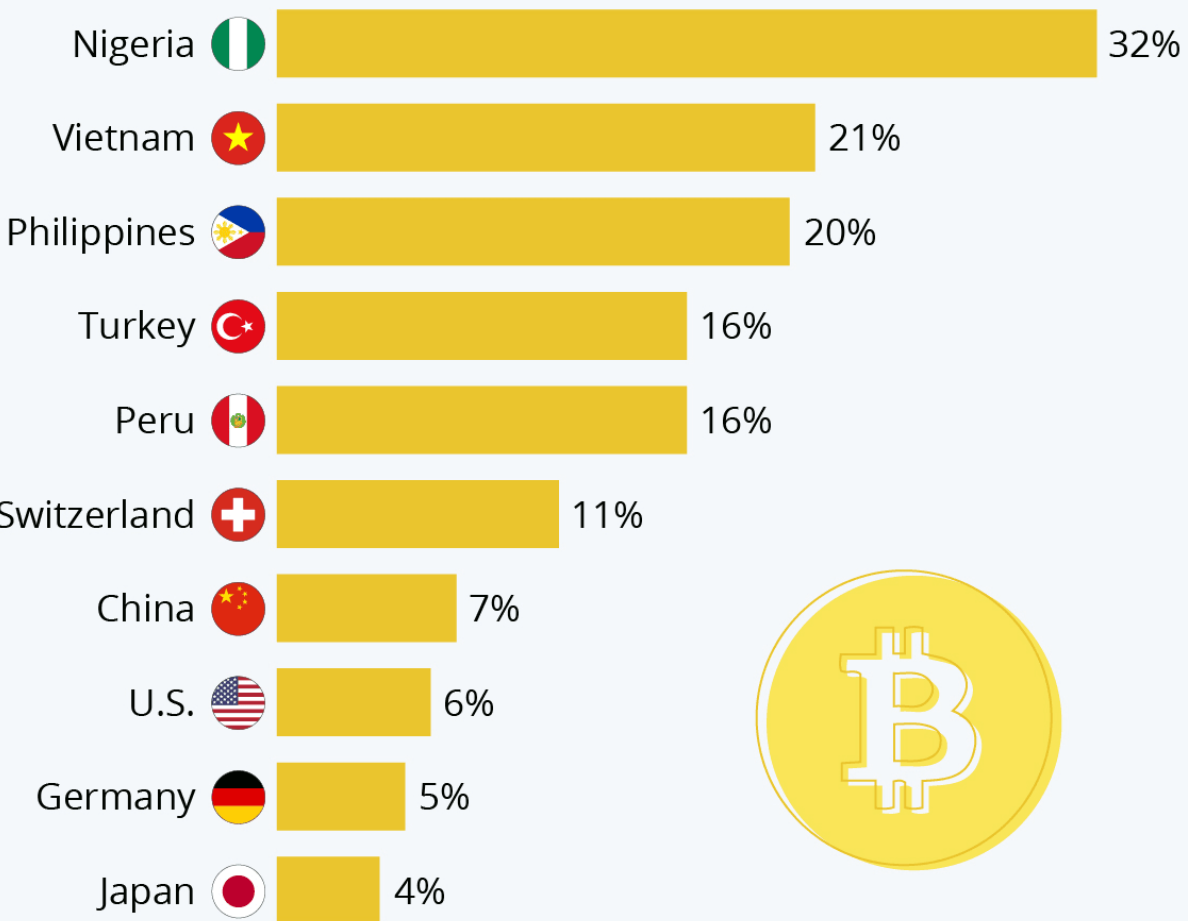

REVENUE MODEL

- Conversion Fees
- Revenue is guaranteed from our vault by charging a small fees for minting stablecoins and vice versa
- Yield Rewards
- We will connect Locked collaterals to various yield programs which will guarantee consistent returns to LPs and Savers.

How we ensure OK
Flourish Remain
Sustainable

How Common Is Crypto?

Share of respondents in selected countries who said that they used or owned cryptocurrency (2020)

,000-4,000 respondents per country
Source: Statista Global Consumer Survey

How large is our
target market in
developing nations?
